BRAIN RESEARCH

VOL. 532 NOS. 1/2 CONTENTS 5 NOVEMBER 1990

Announcement from the Publisher v

Research Reports

Control of potassium currents and cyclic AMP levels by autoactive neuropeptides in *Aplysia* neurons
K.J. Loechner and L.K. Kaczmarek (U.S.A.) 1

Glucocorticoid endangerment of hippocampal neurons is NMDA-receptor dependent
M.P. Armanini, C. Hutchins, B.A. Stein and R.M. Sapolsky (U.S.A.) 7

Decrease of Na^+-Ca^{2+} exchange activity by ascorbate in rat brain membrane vesicles
T. Matsuda, T. Gemba, A. Baba and H. Iwate (Japan) 13

Seroronin and GABA-induced depolarizations of frog primary afferent fibers
A. Gharagozloo, A.M. Holohean, J.C. Hackman and R.A. Davidoff (U.S.A.) 19

Brain abnormalities in immune defective mice
G.F. Sherman, L. Morrison, G.D. Rosen, P.O. Behan and A.M. Galaburda (U.S.A., U.K.) 25

CRF receptor regulation and sensitization of ACTH responses to acute ether stress during chronic intermittent immobilization stress
R.L. Hauger, M. Lorang, M. Irwin and G. Aguilera (U.S.A.) 34

The expression of rat brain synaptic plasma membrane Na^+-Ca^{2+} exchange activity in *Xenopus* oocytes
I. Furman and H. Rahamimoff (Israel) 41

Evidence for coexistence between calcitonin gene-related peptide and serotonin in the bulbospinal pathway in the monkey
U. Arvidsson, M. Schalling, S. Cullheim, B. Ulfhake, L. Terenius, A. Verhofstad and T. Hökfelt (Sweden, The Netherlands) 47

Adenosine modulates a voltage-dependent chloride conductance in cultured hippocampal neurons
R. Mager, S. Ferroni and P. Schubert (F.R.G.) 58

Calpain inhibitors improve the recovery of synaptic transmission from hypoxia in hippocampal slices
A. Arai, M. Kessler, K. Lee and G. Lynch (U.S.A.) 63

Enhancement of NMDA receptor-mediated synaptic potential evoked in rat medial-amygdala neuron following olfactory bulbectomy
H. Nakanishi, K. Ukai, T. Nakagawa, S. Watanabe, O. Kamata and K. Yamamoto (Japan) 69

Corticotropin-releasing hormone and dexamethasone do not alter secretion of immunoreactive β-endorphin from dissociated fetal hypothalamic cell cultures
L.P. Kapcala, H.-H. Juang and C.-F. Weng (U.S.A.) 76

Decreased density, but not number, of *N*-methyl-D-aspartate, glycine and phencyclidine binding sites in hippocampus of senescent rats
D.W. Bonhaus, W.B. Perry and J.O. McNamara (U.S.A.) 82

Chromogranins in rat brain: characterization, topographical distribution and regulation of synthesis
R. Weiler, J. Marksteiner, R. Bellmann, T. Wohlfarter, M. Schober, R. Fischer-Colbrie, G. Sperk and H. Winkler (Austria) 87

Effects of changes in peripheral and cerebral glucose metabolism on locomotor activity, learning and memory in adult male rats
G. Mayer, R. Nitsch and S. Hoyer (F.R.G.) 95

Electrophysiological evidence for activation of NMDA receptors and its antagonism by MK-801 in cerebral ischemia
T. Dalkara, E. Tan, G. Erdemli, R. Onur and T. Zileli (Turkey) 101

Ultrastructural analysis of the innervation of TRH-immunoreactive neuronal elements located in the periventricular subdivision of the paraventricular nucleus of the rat hypothalamus
J. Kiss and B. Halász (Hungary) 107

Expression of somatostatin receptors is impaired in the cerebellum of developing Brattleboro rats
B.J. Gonzalez, P. Leroux, G.J. Boer and H. Vaudry (France, The Netherlands) 115

Inhibition of calcium currents in cultured myenteric neurons by neuropeptide Y: evidence for direct receptor/channel coupling
L.D. Hirning, A.P. Fox and R.J. Miller (U.S.A.) 120

Factors regulating the expression of acetylcholinesterase-containing neurons in striatal cultures: effects of chemical depolarization
J. Dymshitz, R. Malach, S. Amir and R. Simantov (Israel) 131

DA_2/NT receptor balance in the mesostriatal and mesolimbocortical systems after chronic treatment with typical and atypical neuroleptic drugs
L. Giardino, L. Calzà, P.V. Piazza, M. Zanni and G. Amato (Italy) 140

GABAergic projection from nucleus accumbens to ventral pallidum mediates dopamine-induced sensorimotor gating deficits of acoustic startle in rats
N.R. Swerdlow, D.L. Braff and M.A. Geyer (U.S.A.) 146

Long-term survival of GABA-, enkephalin-, NADPH-diaphorase- and calbindin-d28k-containing neurons in fetal striatal grafts
R.C. Roberts and M. DiFiglia (U.S.A.) 151

Effects of iontophoresed opioids on physiologically characterized laminae I and II dorsal horn neurons in the cat spinal cord
S.L. Jones, M.J. Sedivec and A.R. Light (U.S.A.) 160

Intranigral substance P stimulation of striatal dopamine release is inhibited by Spantide II: a new tachykinin antagonist without apparent neurotoxicity
M.S. Reid, T. Hökfelt, M. Herrera-Marschitz, R. Håkanson, D.M. Feng, K. Folkers, M. Goldstein and U. Ungerstedt (Sweden, U.S.A.) 175

Pontine control of the urinary bladder and external urethral sphincter in the rat
M.N. Kruse, H. Noto, J.R. Roppolo and W.C. de Groat (U.S.A.) 182

(contents continued on p. 360)

(contents continued)

NAN-190 :agonist and antagonist interactions with brain 5-HT_{1A} receptors
L. Rydelek-Fitzgerald, M. Teitler, P.W. Fletcher, A.M. Ismaiel and R.A. Glennon (U.S.A.) 191
Developmental immunoreactivity for GABA and GAD in the avian retina: possible alternative pathway for GABA synthesis
J.N. Hokoç, A.L.M. Ventura, P.F. Gardino and F.G. De Mello (Brazil) 197
Serotonin release varies with brain tryptophan levels
J.D. Schaechter and R.J. Wurtman (U.S.A.) 203
Neuronal activity in the mediodorsal and intralaminar nuclei of the dorsal thalamus during classical heart rate conditioning
D.A. Powell, K.L. Watson and S.L. Buchanan (U.S.A.) 211
The voltage-dependent sodium channel in mammalian CNS and PNS: antibody characterization and immunocytochemical localization
L.W. Elmer, J.A. Black, S.G. Waxman and K.J. Angelides (U.S.A.) 222
Neocortical VIP neurons are increased in the hemisphere containing focal cerebrocortical microdysgenesis in New Zealand Black mice
G.F. Sherman, J.S. Stone, G.D. Rosen and A.M. Galaburda (U.S.A.) 232
Facilitation of the acoustic startle reflex by ponto-geniculo-occipital waves: effects of PCPA
M.-F. Wu and J.M. Siegel (U.S.A.) 237
Cardiovascular-related discharge of periaqueductal gray neurons during sleep–waking states
H. Ni, J. Zhang and R.M. Harper (U.S.A.) 242
The connections of area PG, 7a, with cortex in the parietal, occipital and temporal lobes of the monkey
J.W. Neal, R.C.A. Pearson and T.P.S. Powell (U.K.) 249
Effects of repeated injections of cocaine on D_1 and D_2 dopamine receptors in rat brain
M.S. Kleven, B.D. Perry, W.L. Woolverton and L.S. Seiden (U.S.A.) 265
Effects of protein undernutrition on the dentate gyrus in rats of three age groups
L. Cintra, S. Díaz-Cintra, A. Galván, T. Kemper and P.J. Morgane (Mexico, U.S.A.) 271
Distribution of immunoreactivity to protein kinase C in the turtle retina
N. Cuenca, E. Fernández and H. Kolb (U.S.A., Spain) 278
Regenerative, all-or-none electrographic seizures in the rat hippocampal slice in Mg-free and physiological medium
W.W. Anderson, S.F. Stasheff, H.S. Swartzwelder and W.A. Wilson (U.S.A.) 288
Dynorphin A: in vivo release in the spinal cord of the cat
W.D. Hutchison, C.R. Morton and L. Terenius (F.R.G., Australia, Sweden) 299
Responses of units in the mesolimbic system to olfactory and somatosensory stimuli: modulation of sensory input by ventral tegmental stimulation
C.H.K. West and R.P. Michael (U.S.A.) 307

Short Communications

Pontine cholinergic neurons simultaneously innervate two thalamic targets
P.J. Shiromani, C. Floyd and J. Velázquez-Moctezuma (U.S.A.) 317
Trophic effect of granulocyte-macrophage colony-stimulating factor on central cholinergic neurons in vitro
M. Kamegai, Y. Konishi and T. Tabira (Japan) 323
The anticonvulsant valproic acid concentrates in the olfactory bulb: selective laminar localization
T.J. Hoeppner (U.S.A.) 326
Projections of substance P-immunoreactive neurons located in the ventromedial medulla to the A7 noradrenergic nucleus of the rat demonstrated using retrograde tracing combined with immunocytochemistry
D.C. Yeomans and H.K. Proudfit (U.S.A.) 329
Fimbria-fornix lesions in aged rats cause increased carbachol-stimulated phosphonositide hydrolysis in the hippocampus, but no change in muscarinic receptor binding
J.A. Court, A.B. Keith, J.M. Kerwin and E.K. Perry (U.K.) 333
Failure of the lipid peroxidation inhibitor U74006F to improve neurological outcome after transient forebrain ischemia in the rat
T. Beck and G.W. Bielenberg (F.R.G.) 336
Activity of crossed spinocerebellar tract neurones in the thoracic spinal cord in relation to the central respiratory rhythm
Y. Tanaka, D. Abla and N. Hirai (Japan) 339
Neurotoxicity induced by the D-1 agonist SKF 38393 following microinjection into rat brain
A.E. Kelley, J.M. Delfs and B. Chu (U.S.A.) 342
Effect of chronic cervical sympathectomy on local cerebral blood flow during limbic seizures in rat
A.S. Rigaud, E. Pinard, J. Borredon and J. Seylaz (France) 347
NMDA and kainic acid receptors have a complementary distribution to AMPA receptors in the human cerebellum
K.L.R. Jansen, R.L.M. Faull and M. Dragunow (New Zealand) 351
Coexpression of vimentin and glial fibrillary acidic protein is astrocytes of the adult rat optic nerve
J.L. Calvo, A.L. Carbonell and J. Boya (Spain) 355
